

Introducing the Biodiversity Collage

Get nature-literate, futureproof your business: a half-day sustainability workshop

It's time to get nature-literate.

We want you to discover how ecosystem degradation impacts your industry, understand some key dependencies, and explore how you can build resilience for the future.

Outcomes

- + Upskilled and motivated workforce
- + Impact data for your sustainability reporting.
- + Employee alignment with your company's sustainability agenda
- + Meet regulations and have a nature-positive impact

We help you foster the kind of teamwork you need to tackle large, complex problems.

Good for business and good for the planet.

Our Mission: To deliver workshops and trainings that motivate your people and create momentum towards your sustainability goals.

A workshop in three parts:

1. The Card Game

Explore ecosystem dynamics and biodiversity, based on IPBES reports

2. Share and reflect

How does all this apply to my context?

3. Discover your next steps

Generate action ideas and discuss what's impactful
